LEAN SUPPLY CHAIN CERTIFICATION

Lean Supply Chain Management is the management of interconnected businesses involved in providing goods or services to consumers. Lean supply chain management involves the finances, logistics, and delivery of products or services using lean principles and requires integrated behavior to be successful.

Professional development courses are designed to prove your proficiency in a subject matter. Certification courses include all learning material required to pass the exam, and access to the certification test.

Just a few of the competencies covered in this program include:

- Lowering Costs
- Product Development
- Forecasting
- Carrying Cost
- Supplier Alerts
- Bottlenecking
- Plus much more..

"These certifications have been a big boost to my resumé. MSI has really helped my career!"
